TRANSMISSION LIFTER PASSENGER VEHICLES

2059T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: RWD/FWD GVM <2,000KG
Rated capacity: 500kg
Working height: 820-1768mm
Forward tilt: 9° Rearward tilt: 17°
Weight: 52kg

Excludes GST
\$799
Inc. GST \$878.90

TRANSMISSION LIFTER PASSENGER VEHICLES

2022T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: RWD/FWD/AWD GVM <2,300KG
Rated capacity: 500kg
Working height: 895-1875mm
Cradle size: 240 x 340mm
Tilt Angle: Left 7° Right 15°
Weight: 73kg

FEATURES

High-grade steel for quality and durability. Lead-free paint prevents rust and is oil, grease and dirt-resistant for easy cleanup. Universal mounting cradle provides wide fore & aft tilt. High quality large diam. hydraulic steel cylinder unit. Piston-ram treated & polished to extend service life.

TRANSMISSION LIFTER PASSENGER VEHICLES

2052 **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: RWD/FWD/AWD GVM <2,500KG
Rated capacity: 500kg
Working height: 855-1760mm
Cradle size: 276 x 360mm
2 Stage lift
4 way tilting working head
Tilt: Fwd 15° Rwd 7° Lat 7°
Base: 690 x 780mm
Weight: 61kg

FEATURES

High-grade steel for quality and durability. Lead-free paint prevents rust and is oil, grease and dirt-resistant for easy cleanup. Universal mounting cradle provides wide fore & aft tilt. High quality large diam. hydraulic steel cylinder unit. Piston-ram treated & polished to extend service life.

TRANSMISSION LIFTER SUV / 4X4 & LIGHT COMMERCIAL

2063T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: RWD/FWD/AWD/4X4 GVM <3,200KG
Rated capacity: 1,000kg
Working height: 940-1920mm
Lift platform size: 280 x 280mm
Tilt: Fwd 15° Tilt Rwd 10°
Tilt: Side 9° Tilt Side 11°
Weight: 82kg

FEATURES

High-grade steel for quality and durability. Lead-free paint prevents rust & is oil, grease and dirt-resistant for easy cleanup. Universal mounting cradle gives wide fore & aft tilt. High quality large diam. hydraulic steel cylinder. Polished & treated Piston-ram extends service life.

WARNING INTENDED USE: Removal & Installation of Transmissions
NOT INTENDED FOR: Supporting Loads i.e. Fuel Tanks, Suspension Work, BullBar Installations

FEATURES OF TQ Pro BOTTLE JACKS

Using CNC technology, TQ Pro products are constructed using superior-grade steel and built to premium TQ Pro standards for professional quality and durability. Premium quality large diameter hydraulic steel cylinders are machined with precision tolerances, then treated and polished to minimise wear and extend service life. Incorporating the latest technology in aggressive wiping lips and OD exclusion, the high capability premium quality seal systems efficiently protect internal hydraulics keeping it free from dirt, mud, water, and other contaminants. A lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting premium finish with a final coat that is oil, grease and dirt-resistant for easy cleanup.

50,000kg Capacity

AIR/HYDRAULIC WORKSHOP PRESS 75,000KG

BSP75TA **BORUM**
INDUSTRIAL WORKSHOP EQUIPMENT

Safe working capacity: 75,000kg
Working range: 170-884mm
Piston ram stroke: 260mm
Bed height settings: 8
Bed width: 800mm
Op. air pressure: 110-125psi
1925H x 1446W x 800Dmm
Weight: 451kg

INDUSTRIAL QUALITY

FEATURES

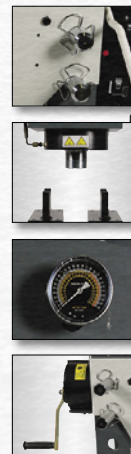

High-grade steel H-frame.
Foot operated air trigger ram travel control.
100mm pressure gauge.
Table winch system lowers or raises the bed.
High quality large diameter hydraulic steel cylinder unit.
Hydraulics are powered with a high quality oil.
Integrated overload protection valve keeps from overloading the system.
Lead-free paint finish is oil, grease and dirt-resistant for easy cleanup and to help prevent rust.
Extra tall working range.
Pair of bed plates included.

AIR/HYDRAULIC WORKSHOP PRESS 100,000KG

BSP100TA **BORUM**
INDUSTRIAL WORKSHOP EQUIPMENT

Safe working capacity: 100,000kg

FEATURES
 AIR/HYDRAULIC OPERATED 30,000KG PRESS
 SPRING COMPRESSOR. FILTER CRUSHING ACCESSORY
 DOZENS OF UNIQUE TOOLING OPTIONS
 ON-BOARD TOOLING STORAGE STAND
 WINCH OPERATION TO LOWER AND RAISE BENCH

BENEFITS
 Press almost any bearing or bush with **PRECISION** and **ACCURACY** in minutes, saving valuable workshop time.
 Smooth **AIR/HYDRAULIC** foot pedal operation for hands-free accuracy & control.
 Hands free Spring Compression.
 Even the most difficult pressing tasks become **SAFE & EASY**.
 Complete with **COMPREHENSIVE HIGH QUALITY** Interlocking Tool, Die and Spacer Kit to ensure **SAFE WORK PRACTICES**.
 Complete on machine storage - minimises time spent searching for the required tools & spacers for each job!
 Tasks like **SUSPENSION BUSHES** once seen as too hard become a breeze.
 A comprehensive variety of spring adaptors, suitable to almost any type or model of spring **SAFE & EASY** to compress in **MINUTES!**
 Decrease labour time and increase productivity and efficiencies.
 Increase Workplace Safety.
 Undertake jobs that are currently too difficult.

FEATURES

TradeQuip "Made for the Trade" Ultrasonic Parts Cleaners make it easy to clean items like carbies, calipers, nuts & bolts, most small metal parts - even jewelry. Just fill the cleaner with water, mix with the appropriate ultrasonic cleaning additive (sold separately), set the timer and walk away to get on with another job. The ultrasonic cleaner works with or without heat and provides deep cleaning using ultrasound technology and water. The adjustable temperature and timer gives you a variety of cleaning performance options.

BLASTING MEDIA ABRASIVE

Tradequip "Made for the Trade" Blasting Media Abrasives are designed for use in conjunction with our Tradequip Mobile Blasting Kits and Blasting Cabinets. Abrasive blasting has been used for many years to clean and remove rust, paint and corrosion. There are many types of abrasive media available, the most common being Garnet, Steel Grit and Glass Bead. These media have an aggressive cut and can rapidly remove paint and rust. However, they can also generate significant heat, potentially resulting in warped metal and etched surfaces, and they cannot be used on fibreglass. Also, chrome, plastic, rubber, trim, and other parts must be removed from a work surface or masked-off before blasting. Alternatively, less-aggressive media, such as Walnut Shell, will do a great job at removing paint. Walnut Shell does not generate as much heat as other media, and can be used on sheet metal and fibreglass without damaging the base material. However, Walnut Shell as with any abrasive media, will require more clean-up as it leaves particles in the car body's seams and crevices that can be difficult to completely remove. Soda blasting media has non abrasive properties which makes it a very universal blasting media which can be applied to lighter materials such as aluminium, plastic, fibreglass, wood etc. Soda Blasting does not damage glass, rubber, chrome items if they are left on a vehicle for blasting.

GARNET 25KG MEDIUM 30/60 3020T

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$58
Inc. GST \$63.800

GARNET 25KG FINE 35/100 3021T (Australian Mined)

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$66
Inc. GST \$72.6050

WALNUT SHELLS 20KG 6-100 MICRON 3022T

Walnut Nut shells and other organic materials, don't cause anchor patterns, making them useful for removing dirt, grease, oil, carbon, scale, burrs and paint without changing the underlying substrate. Walnut shells can be an excellent choice for softer surfaces such as wood — they won't cause etching. Walnut shells are one of less abrasive blasting media you can use and are completely biodegradable, making them among the most environmentally-friendly blasting media.

GLASS BEAD 25KG 106-300MICRON 3025T

Glass beads are used for general cleaning, peening and cosmetic finishing of sensitive metal surfaces; removing automotive paint; brightening grout and removing fungus and calcium deposits from tile; polishing cast iron, stainless steel, aluminium, propellers and turbine blades. Glass Beads are environmentally friendly and can be used in many blast applications to provide a finish with no profile. Use while working with metal, plastic or rubber materials to clean, debur and finish.

Excludes GST

BLASTING CABINET 420 LITRE CAPACITY

Cabinet capacity: 420 Litre
Air regulator & gauge panel
4 Ceramic nozzles: 2x5mm, 2x6mm
Maximum media capacity: 70kg
Maximum air pressure: 125psi
Required air supply: 15-25CFM
14 gauge steel legs & 16 gauge panels
Sand blasting efficiency: 100cm²/min
Optimum operating pressure 60-110psi
External size: 1680H x 1180W x 940Dmm

Oversized hinged top door opening

420 LITRE Capacity

Includes blasting gun & vinyl blaster gloves

FEATURES

Perfect for surface preparation on any type where other forms of preparation are difficult.
Ideal for removing paint, rust, scale and oxidation.
Large viewing window gives the operator a wide viewing area.
Oversized hinged top door opening & large inside work area allows easy maneuverability.
Hinged door on hopper allows for easy abrasive changes.
Fluorescent light kit and 90CFM dust collector help the operator to maintain a good visual.
Rear-mounted dust collector.
Replaceable protective window.
Foot-pedal-controlled siphon blast gun.

Nylon Castors for easy portability

Remote Control Timer Panel

TRADEQUIP EVAPORATIVE COOLERS FEATURES & BENEFITS

Moulded polyethylene housing will not crack and is rust & leak proof.
Environmentally-friendly alternative to traditional reverse cycle A/C.
Cools without chemicals or refrigerants.
Long-term dependability. Near maintenance free operation.
Cools where traditional cooling methods are impractical or cost-prohibitive.
Remote control speed adjustment. Direct drive. LCD 24 hour timer panel.
Easy to read water level sight tube gauge.
Dual pour in refill water inlet and/or 3/4" hose fitting for automatic tap refill.
Adjustable water flow & drain valve. Nylon castors for easy portability.

PORTABLE EVAPORATIVE COOLER 550W

1027T **TRADEQUIP**
The trusted brand in equipment

240V/50Hz/550W 3 speed motor
Max. air flow: 18,000 m3 per hour
Effective cooling area: 100-150sqm
Water consumption: 12-18 litres per hour
Water tank capacity: 100 Litres
1510H x 1120W x 680Dmm
Weight: 58kg

INDUSTRIAL PEDESTAL MISTING FAN 650mm

1182T **TRADEQUIP**
The trusted brand in equipment.

240V/50Hz/230W 3 speed motor
90° Oscillation
Water shortage protection.
Drop the temperature: 2-8°C
Adjustable mist-Exit Vol: 0-16KG/Hr
Effective spray distance: 8-10mtr
Suitable for cooling people, stockbreeding or greenhouse applications.

Excludes GST
\$599
Inc. GST \$658.90

MADE FOR THE TRADE

FEATURES
Great for workshops and factory floor areas.
Adjustable height to 1.8m and 3 speed operation.
Large water storage tank & integrated water reservoir.
No mess drip water collector.
Heavy duty base for safety and stability.
Low pressure water pump for reliability and longevity.
Automatic shut-off when water tank is empty.

*21st Century
features*

ALL BORUM DRILL PRESSES FEATURE

Flexible worklight. Engineering style work table.
Oversize micro-switch activated safety guard.
Low-noise belt drive with cast iron balanced pulleys.
Safety ON-OFF switch fitted with a dust cover and positive action push buttons plus a large (Red) self locking "Emergency Stop" hinge cover.
Precision spindle bearing for long life & high accuracy.
Table control via hand crank and gear rack with high load capacity.
Long quill stroke, easy to adjust depth stop at the capstan handle.
Thick-walled, precision-ground column for extra rigidity.
Powerful long-life commercial drive motor provides high reliability.
Ground set-up areas on table and base plate.
Solid rotating work table with diagonal clamping slots.

WORKSHOP HEATER 30kW

1096T **TRADEQUIP**
the trusted brand in equipment

Power output: 30kW - 102,360 Btu/h
Motor: 240V/50Hz 10A 230W
Air delivery: 720cubic metres per hour
Noise level: 76dB(A)
Fuel consumption: 2.4kg/hr
Tank capacity: 38 Litres
Dimensions: 880 x 456 x 590mm
Weight: 21kg

MADE FOR THE TRADE

**RUNS UP TO 9 HOURS
ON A SINGLE FILL**

FEATURES

Burns diesel or kerosene. Built in oil burner.
Electronic flame control system.
Safety overheat thermostat and pressure switch.
Stainless steel heat exchanger.
Double skinned combustion chamber for thermo-acoustic insulation and safe low surface temperature.
Preheated oil filter. Twist lock fuel cap with cable.
Pre-purge and post-ventilation cycles.
