Product Code: **1029T**

WORKSHOP

EVAPORATIVE COOLER

240V 750W

Using the process of evaporation, this TradeQuip "Made for the Trade" Portable Direct Drive 3-Speed Cooling Unit will cool the air up to 10°C in all large hard-to-cool working areas. The one-piece moulded polyethylene housing will not crack, leak and is rugged enough for any workshop or outdoor environment. The remote control 3-speed fan forces warm air over rigid water soaked evaporative cooling media to reduce ambient temperatures by up to 10°C. Ideal for cooling high performance vehicles when used with Dynometers.

FEATURES

- One-piece moulded polyethylene housing
- Cools without chemicals or refrigerants
- Long-term maintenance-free dependability
- Easy to read water level sight tube gauge
- Dual pour in refill water inlet and/or 3/4" hose
- LCD 24hour timer panel
- Nylon castors for easy portability
- Remote control speed adjustment

**MADE FOR THE
TRADE**

SPECIFICATIONS

- Power Unit: 240V 50Hz 750W
- Max. Air Flow: 23,000m³
- Noise Level: 75dB(A)
- Fan Diameter: 900mm
- Speed Control: 3-speed
- Cooling Area: 200-260m²
- Water Consumption; 20-35 Litres per hour
- Water Tank Capacity: 200 Litres
- Castor Wheels: 150mm Dia (4 with brakes)
- Dimension: 1800(H) x 1600(W) x 780(D)
- Nett Weight 128kg
