

GARAGE EQUIPMENT

Product Code: **1198T**

ADJUSTABLE

AUXILIARY STAND

680KG SAFE WORKING CAPACITY

Our TradeQuip "Made for the Trade" Under Hoist Auxiliary Stands are ideally suited to the professional trade workshop. This underhoist auxiliary stand is ideal for supporting exhaust systems, shock absorbers and other vehicle components during under-hoist vehicle repair. Under Hoist Auxiliary Stands are a vital element in any automotive repair workshop where efficiency is an important part of the business.

FEATURES

- Heavy gauge steel frame prevents distortion or twisting
- Auxiliary stands provide partial support for components - they are NOT designed to support the vehicle
- Foot pedal allows easy load movement and hand free operation
- Quick action adjustable height mechanism
- Sold individually recommended only to be used individually
