HYDRAULIC

PORTA POWER KIT

10000KG CAPACITY

The TradeQuip "Made for the Trade" 10,000kg Hydraulic Porta Power Kit is designed to be used for pushing, spreading, and pressing of vehicle body panels as well as various component parts and assemblies. The variety of attachments include a rubber head, flat base, wedge spreader, spreader toe and various extension tubes with a snap lock design for quick and easy assembly. The flex head features a permanently moulded rubber pad, interlocked to prevent separation.

FEATURES

- Spring loaded ram return system
- Horizontal and vertical pump position
- Built to exacting standards for durability
- Lead-free paint finish to ensure a long-lasting finish and help prevent rust
- Oil, grease and dirt-resistant paint
- Automatic overload system
- Easily adapts to rams, & other accessories
- Contained in sturdy Plastic Carry Case
