

GARAGE EQUIPMENT

Product Code: **7001T**

FIXED BASE

ENGINEERS VICE

150MM JAWS WITH ANVIL

This TradeQuip Cast Engineers Vice is designed for general-purpose, service or maintenance use. It features a tough cast iron body and slide with a machined steel screw and handle. This small foot print TradeQuip Engineers Vice has a fixed base for stability and forged serrated steel jaws to tightly grip the workpiece and keep it steady. TradeQuip Vices are designed to withstand a heavy amount of pressure with less risk of breakage. The anvil is perfect for shaping and fabrication work.

FEATURES

- Constructed from high grade thick rugged cast iron
- CNC machined parts and fully ground rails
- Forge hardened steel serrated jaws
- Precision machined steel screw and handle
- Reinforced mounting lugs
- Flat and durable anvil surface incorporated

**MADE FOR THE
TRADE**
