UNIVERSAL MOUNT

DRILL PRESS VICE

150MM JAWS

Made with a durable cast iron base, this TradeQuip "Made for the Trade" Drill Press Vice holds fast with its forged 150mm steel jaws to reduce vibration when drilling. This vice is built to be fastened right onto your drill press table with convenient built-in bolt-down slots. The replaceable cross-grooved steel jaws have a strong grip and will prevent work pieces from moving around once clamped in place. The high strength iron base along with the elongated mounting holes provides stability & easy position adjustment on most drill press tables.

FEATURES

- Made from high-strength steel and malleable cast iron components
- Forge hardened steel serrated jaws
- Precision machined steel screw and handle
- Elongated mounting holes
- Machined steel main screw with rolled threads
