

HEAVY DUTY Workshop Equipment

Product Code: BTJ1025TA

Air Hydraulic Truck Jack 2-Stage 10,000kg 25,000kg

The BTJ1025TA quickly and easily manages a hefty 25,000kg in the first stage lift position and 10,000kg at the higher 2nd stage extension. This Air Actuated Commercial Jack is designed for heavy duty commercial use and features a long reach "T" handle and large rubber wheels for smooth manoeuvring around the workshop. As always with BORUM, safety is just as important as industrial standard quality, so all BORUM Truck Jacks have a built-in safety valve to prevent overloading and keep the operator safe. Additional safety feature includes a Self-Return lowering and lifting switch to ensure complete control during operation.

Features

- Seals made in America
- Double Sealing Function using XTP Industry Sealing
- Telescopic air actuation lift (air-hydraulic pump)
- Long T-handle easily positions jack under vehicle
- Self-Returning Lowering and Lifting Switch
- Internal and External Cylinders hard chromed
- High manoeuvrability & deep reach under vehicles
- Designed for extremely high axles
- 2 extension adaptors / saddle plates
- Large rubber wheels
- All adaptors can be properly stored for transport on each side of the jack

**INDUSTRIAL
QUALITY**

Specifications

- First Stage: 25,000kg Safe Working Capacity
- Second Stage: 10,000kg Safe Working Capacity
- First Stage Hydraulic Lift: 97mm
- Second Stage Hydraulic Lift: 95mm
- Minimum Height: 185mm
- Maximum Height: 497mm
- Adaptors: 45mm and 75mm
- Handle Length: 1380mm
- Operating Air Pressure: 145-175psi
- Chassis: 770x282x185mm
- Nett Weight: 53kg
