## TRANSMISSION LIFTER SUV/4X4 & LIGHT COMMERCIAL

This TQ Pro "Latest Applied Technologies" 2-Stage 1,000kg Hydraulic Telescopic Transmission Lifter offers a wide range of versatility designed to help increase workshop productivity. For use with car 4WD and light truck transmissions. It features a universal "oversized" mounting cradle that provides a wide 4 way tilt range. The telescopic 2-stage design is ideal for reduced clearance lifts and the high speed foot pedal operation keeps hands free during lowering. The manually operated hydraulic system includes a bypass system to prevent over extension and accidental overloading. The sturdy and stable design features four premium quality 'braked' nylon swivel castors for easy maneuverability around the workshop.

### Features

- Built to exacting standards using CNC technology
- Precision tolerances and lubricating mechanism
- Piston-ram treated and polished to minimise wear
- Premium quality O rings with anti-dust ring
- Concealed double staged pump core
- Oversize mounting cradle 4 way tilt range
- Rapid lift without load
- Slow descent with load
- Overload safety valve
- Premium lockable swivel castors
