

HEAVY DUTY Workshop Equipment

Product Code: RAMKIT

Hydraulic

Ram Accessory Kit

This Borum Industrial Ram Kit includes 2 puller rams and 5 pusher rams for lifting, pushing, pulling, bending, and straightening. A must for a variety of auto body, frame repair, and construction jobs. Ram and cylinder bearings are designed for protection against off-centre load stresses. High flow quick-connect coupler with dust cap. Borum Industrial quality multi-purpose hydraulic rams are used for automotive, truck, farm and heavy equipment repair. Quality steel design with high gloss enamel coating for durability and longevity.

*Requires hydraulic pump, hoses and fittings, sold separately.

Features

Used for pulling, pushing, bending, lifting, straightening and spreading operations in auto body and heavy equipment frame repair

Hardened, heat treated steel design for durability

High gloss enamel coating to prevent corrosion

Uses a common 1/4" NPT attachment

Hydraulic pump for 10,000kg of pneumatic power

Comes in heavy duty metal transport case for organisation and storage

Individual rams available seperately

**INDUSTRIAL
QUALITY**

Specifications

2,000kg Mini Ram - Length 126mm Stroke 73mm

4,000kg Mini Ram - Length 40mm Stroke 18mm

10,000kg Mini Ram - Length 118mm Stroke 58mm

4,000kg Push Ram - Length 270mm Stroke 125mm

10,000kg Push Ram - Length 358mm Stroke 135mm

2,000kg Pull Ram - Length 365mm Stroke 125mm

5,000kg Pull Ram - Length 455mm Stroke 150mm

2 x 2,000kg 360° Swivel Double-End Hooks

2 x 5,000kg 360° Swivel Double-End Hooks

Blow Mould Carry Case: 530 x 500 x 110mm

Weight: 23kg
