

PRODUCT INFORMATION

ENGINE STAND (Easy Store)

450KG SAFE WORKING CAPACITY

TradeQuip "Made for the Trade" 450kg Engine Stand has a 4-leg design featuring a rugged frame with a 4-hole mounting head that rotates 360°, making the unit ideal for 4 cylinder engines. When you've got an engine repair job that can't be completed while the engine block is in the vehicle, this engine stand provides a sturdy support structure to secure the removed engine in mid-air, so you can access any part of it. Use an engine crane to remove the engine from the vehicle, then mount it to the faceplate on this engine stand.

(Previous models include product code/s; 1006, RLES450)

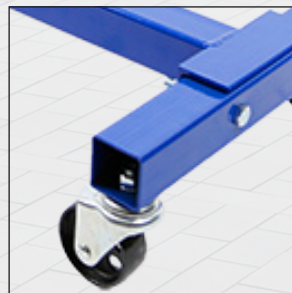

Features

- Rugged tubular steel frame with durable finish
- Rotating head that locks in 8 positions
- Slotted mounting head for full adjustment
- Extra wide base for stability and safety
- Easy knockdown and quick assembly design for storing and transporting
- Large diameter wheels and castors for smooth maneuvering
- Suitable for cast iron/alloy block 4 cylinder engines
